ESIPUHE

Nämä asteikot kattavat asteikkosoiton ensimmäisestä seitsemänteen asemaan. Ne soitetaan ennen 3-oktaavisia asteikkoja, jotka ovat ilmestyneet aikaisemmin. Asteikot ovat soittojärjestyksessä. Muutamien asteikkojen alle merkityt sormitukset ovat esimerkkejä asemanvaihtojen käyttömahdollisuuksista.

Konyuszuszin kaksoisäänivihko, joka on ilmestynyt unkarilaisena painoksena, tarjoaa tälle tasolle soveltuvaa materiaalia kaksoisäänten opiskeluun
